

Savings for your business, vital funding for your community

So far, local business owners like you, contributed over **\$50,000** through GratisGives™ to our community.

How it works

- 1 Team-up** with GratisGives, a local payment processor offering competitive payment processing rates.
- 2 Save** your business money on processing fees you already pay, and realize savings of potentially \$1,000s per month!
- 3 Choose** to donate a small portion of your savings to a select list of charities in our community.

You save money, and your community feels the collective support of the businesses that care enough to give a little.

The WIN-WIN

THE SAVING

Joy is a local dentist. She sees and treats patients everyday. Her patients pay her for her services by credit card. Joy would like lower credit card fees; GratisGives helps lower credit card fees.

THE GIVING

With Joy now saving an extra \$500 per month in credit card fees, she decides to give a little. Through GratisGives she can give a small amount of her SAVINGS to a participating nonprofit she cares about.
